PURPOSE OF REPORT:

The purpose of this report is to consider and authorise the proposed mid-year budget review for 2022/2023.

BACKGROUND:

The review period covered for this quarterly budget is October 2022 to January 2023. The mid-year budget review has maintained a conservative approach but at the same time has increased budgeted revenue and expenditure to a more realistic estimate. An allowance was made to carry forward capital projects that will not be delivered in the current financial year.

DETAILS:

The budget amendments from this review incorporates the following adjustments:

- A net decrease in the operating budget of \$377,914 as per **Attachment 1**;
- A net increase in Cash Backed Reserves of \$4,599,869 as per **Attachments 2 and 3**;
- A net decrease in the capital budget of \$3,097,572 as per **Attachment 4**;
- A net increase in the opening surplus of \$1,019,862, and a forecast year end surplus at 30 June 2023 of \$158,178, as per **Attachment 2**.

Capital Expenditure

The 2022/2023 current budget includes a capital expenditure program totalling \$16,991,041.

The City's major capital expenditure projects for this financial year include the Annual Local Roads Program (\$1,295,569), Beatty Park Gym Equipment (\$778,141), Beatty Park Leisure Centre Heritage Grandstand Electrical Works (\$670,000) and Accessible City Strategy Implementation (\$550,000).

Further additional detail of the total amendments of \$3,097,572 to capital expenditure budget are included in **Attachment 4**.

Some of the key capital budget amendments are summarised below with additional detail included in **Attachment 5**.

Description	Current Budget	Proposed Revised Budget	Net Movement	Carried Forward Budget to 2024FY	Comments
North Perth Bowling Club	300,000	10,000	(290,000)	290,000	Project carried forward to FY24
Beatty Park Leisure Centre – Construction & Fit Out Indoor Pool Changerooms	850,000	150,000	(700,000)	650,000	\$50k reallocated to investigate pool tiling works priority. Carried forward with expected delivery in FY24. Refer to Explanatory note below.
Light Fleet - Annual Allocation	1,119,000	383,000	(736,000)	736,000	Delivery expected in FY24
Leederville Oval Stadium - Sports lights renewal	1,201,983	30,000	(1,171,983)	1,171,983	Reduce overall budget with only design stage scheduled for completion in FY24. Carry forward to FY24 to finalise funding agreement and agreed scope of works

BPLC changerroom project

It is proposed to allocate \$50,000 of the \$850,000 of this project budget to progress the investigation and scoping of the pool tiling works in the 30m outdoor pool. A further \$650,000 has been recommended to transfer to BPLC Infrastructure renewal reserve knowing that the changerroom project will not commence construction in this financial year.

A recent Opinion of Probable Cost has been received from the architects designing the changerroom project at approximately \$915,809 (ex GST). Full design documentation has been complete and is ready for tender development. It is proposed to progress to tender the construction of the changerroom and advertise by open tender over April/May with proposed award of contract to be around June/July 2023.

It is expected the construction timelines of this project could be anywhere between 45-55 weeks which will result in this project being delivered over two financial years FY24/FY25. A budget of \$650,000 has been allocated (from BPLC reserve) in the 4 year capital works program for FY24 and a budget of \$550,000 has been allocated in FY25 (totalling \$1,200,000 budget to cover contingencies). Once Council receives the tender report the recommendation can address the required allocation of resourcing in the FY24 and FY25 capital works budgets. Project Change Request included as Attachment 7.

30m Pool tiling project

The tile delamination has escalated in the 30m pool increasing the safety risk of pool users in particular for the City's regular booking groups. Communications have been arranged to alert users of the risk and temporary measures including installing matting the bottom pool to eliminate any sharp edges of the tiles are currently in progress.

It is proposed the 30m pool be closed as of 11th April to commence the investigation works (including emptying of pool and drilling and coring of pool structure to determine structural integrity). This timing will allow for current groups such as water polo and synchronised swimming to finish their season and have notice to make alternative pool use arrangements.

Once the investigative works have been completed an engineer has been engaged to develop the specifications for the pool re-tiling works and it is proposed to release this to open tender with hope to award early in the new financial year. There is currently \$750,000 allocated in the 4 year capital works program for FY24 and a further \$850,000 is allocated in FY25 for further pool retiling works with the 12m and 50m pool also reaching end of life.

Title *

Change to delivery timeline and reallocation of funding

Project

22FY BP - Beatty Park 2062 -

Change Description *

it has been recommended in the MYBR that \$50k of this project funding be allocated to the 30m pool tiling investigation works to allow tender specification and scoping of this project to be achieved in this financial year. This will allow the pool tiling remediation works to progress sooner once budget is adopted, we can progress to tender as soon as possible.

The additional \$650k that is allocated to the changeroom project is recommended to be placed in the BPLC infrastructure reserve pending the receipt advice and opinion of probable cost of this project. Once the estimated cost of the project is known Council can decide the funding allocations to this project in 2024 should funding be available, stage the project or defer project due to funding priorities.
