

13 MOTIONS OF WHICH PREVIOUS NOTICE HAS BEEN GIVEN**13.1 NOTICE OF MOTION - MAYOR EMMA COLE - WAIVE THE FEE FOR SKIP BINS ON RESIDENTIAL VERGES FOR LESS THAN 14 DAYS**

TRIM Ref: D19/106372

Attachments: Nil

That Council **BY ABSOLUTE MAJORITY:**

1. **NOTES that a non-refundable administration fee (skip bin) verge of \$42 is currently required for residents who wish to place a skip bin on the verge adjacent to their property, regardless of whether this is on-going construction or a short term use; and**
2. **Amends the 2019/20 Fees and Charges to remove the \$42 non-refundable administration fee (skip bin) verge where the skip bin is in place for up to 14 days.**

REASON

Residents who require a skip bin for one off removal of waste are currently required to pay a \$42 fee to place a skip bin on their verge, regardless of length of time. There is currently no differentiation between the fee associated with long-term use of skip bins to deal with on-going construction waste and less intensive uses by residents over short periods of time. Removal of the \$42 fee for a permit for up to 14 days is a way to differentiate between higher impact construction use and low impact, sporadic residential use and is a fairer approach.

ADMINISTRATION COMMENTS

Administration has no objection to this Notice of Motion however Elected Members should note that the verge inspections are still required to be undertaken and there is a potential loss of income of approximately \$3,024/annum.
