Road Naming Procedure

For the purposes of this procedure, a road is considered to be any public or private land-based thoroughfare or course navigable by vehicle or foot that can be used for assigning addresses or allowing access between points or to a feature. Examples of roads include laneways, alleyways, streets, highways, fire tracks, bike paths, malls, pedestrian access ways and walking tracks.

All road naming proposals must conform to Landgate's Policies and Standards for Geographical Naming in Western Australia (Policies and Standards).

STEP 1: The City initiates or receives a road naming application via the completion of the **Road Naming Application Form**

ABORIGINAL NAME

- through an assessment against Landgate's Policies and Standards and the City's Road Naming Criteria; and
- in consultation with the Reconciliation Action Plan Working Group (RAPWG), South West Aboriginal Land & Sea Council (SWALSC) and/or Whadjuk Working Party (WWP)

NON-ABORIGINAL NAME

- through an assessment against Landgate's Policies & Standards and the City's Road Naming Criteria; and
 - using Landgate's On-line Form

STEP 3: If the name is determined to be suitable, community consultation will be undertaken which will include:

advertising of a copy of the Road Naming Application on the City's website; and

 notifying affected residents, ratepayers, businesses and local community groups operating or located within the boundary as defined by the Road Naming Consultation Diagram

The Road Naming Application will be advertised for a period of 30 days to enable the community to provide feedback

STEP 4: At the conclusion of the 30 day community consultation period, the community feedback will be analysed and a determination as to whether community consent has been achieved in line with Landgate's Policies and Standards will be made

STEP 5a: If community consent is achieved, the City will submit the suitable naming proposal to Landgate STEP 5b: If community consent is not achieved, the City will advertise the outcome via the City's website and notify affected residents, ratepayers, businesses and local community groups as defined by the Road Naming Consultation Diagram

STEP 6: Should Landgate approve the name, the City will:

- advertise the outcome via the City's website;
- notify affected residents, ratepayers, businesses and local community groups as defined by the Road Naming Consultation Diagram; and
 - arrange the manufacture & installation of street nameplates/poles (as required)

Note: If the City receives more than one road naming application for any one road prior to the completion of the consultation period, the City will consult on all suitable naming proposals.

If, following consultation, community consent is achieved for more than one naming proposal, the naming proposal which has received the most community support will progress to STEP 5a. If Landgate does not approve this name or a variant, the alternative naming proposal which has achieved community consent and the second most community support will progress to STEP 5a. If Landgate does not approve the alternative name this process will be repeated until a suitable name has been approve by Landgate.

If Landgate does not approve any of the proposed alternative names, the City will undertake STEP 5b.
