Road Bridges, Footbridges and Underpass	Public Toilet	
Local Government Authority Boundary	Telephone	
	Sporting Facility	
	Swimming Pool	
	Hospital	

Getting around the local area

More people are choosing to walk, cycle and use public transport. This guide will help you get to know your local neighbourhood on foot, by bike or using public transport.

We encourage you to look closely at what's nearby and take the time to explore what our City has to offer.

Perhaps test out a bike path, get your friend together to kick the footy, or walk your dog down to the shops. Whatever you do, it's **Your Move**.

How to use this map

There are two sides to this map: one with walking and cycling information, the other with public transport routes. Both sides feature a wide range of handy services and amenities.

We encourage you to follow the steps below that have already helped thousands make the most of these maps.

1. Mark where you live.
2. Mark where you frequently visit, like the shops, work, friends' and families' homes and the train station.
3. See if you can get to these places by walking, riding your bike or catching a bus. If you can, highlight the routes for quick access when you're out and about.

To make even more use of this map, try the following:

- Look for places you never knew was there like parks, community centres and delis.
- Each time you're looking for ways to get active, consider visiting somewhere new. You might just find something or meet someone that makes your day.

Walking and Riding

Walking and riding are great ways to fit physical activity into your everyday life. Think about the local trips you make such as going to the shops, dropping kids at school, visiting friends or posting a letter. Which of these can you do by walking or riding?

It is recommended that you ride on the side of quiet streets that we have identified as 'bike friendly routes', shown in green on the map.

These routes connect to on-road bike lanes and 'shared paths', which are wide footpaths often painted with large bicycle symbols. These paths connect to some local centres and high-quality shared paths, which are much wider and have a dotted line down the centre.

Due to more and more people riding bikes, plenty of bike racks have been installed in our City. Keep an eye out for the bike parking symbol. The City of Vincent is committed to making sure you have plenty of places to secure your bike when cycling about the City. If you have any great ideas as to where a bike rack is needed please email our TravelSmart Officer at travelsmart@vincent.wa.gov.au. Vincent now has several bike repair stations dotted around the City. Visit www.vincent.wa.gov.au/bikerepairs for locations.

Check out the amazing murals around the City - walk or ride there! Info at www.vincent.wa.gov.au

The Perth Bicycle Network is currently being revised. Updated routes will be included in future versions.

For information on more great Perth walks and for further cycling information including bike maps and upcoming community events go to: www.yourmove.org.au

Catching the Bus or Train

On the public transport side of the map, the thick green coloured lines are bus routes. Bus stops are shown as coloured squares along the route. Follow where the bus goes by tracking the thick green coloured lines.

To plan your journey or for the latest timetables, click on the 'Journey Planner' tab on www.transperth.wa.gov.au, or download the official Transperth App for iOS and Android devices by searching your device's app store. Otherwise call Transperth on 13 62 13 or just text the 5-digit number (found on the top of the pole at each bus stop) to 13 62 13 and Transperth will reply with the next five services from that stop.

All buses on accessible routes are low-floor and have ramps for prams, wheelchairs and strollers. Accessible bus route numbers are in blue and pink boxes on the map and are marked accessible in the legend.

For more tips on catching the bus or train, go to: www.yourmove.org.au

We hope you enjoy exploring what the City of Vincent has to offer.
