**RE: Demolition Permit (DA Approval: 5.2010.555.1 or S.2010.SSS.1)**

This letter is accompanying my application for a Demolition Permit. I submitted a previous demolition application in Nov 2010 and was granted conditional approval. I seek to gain an extension of the approval through this new application.

I have not submitted detailed plans of our proposed building as we have not proceeded yet with a builder of our choice. I wish to obtain approval before we commit a substantial amount of funds with a builder in developing plans in accordance with the City's building provisions, so that I have confidence we have permission to demolish the existing dwelling.

I will not be demolishing the existing dwelling until such time as I have approved building plans for the new dwelling from the council. I intend to submit my building plans to council as soon as is practicable and after I have chosen a builder and designed plan for the new dwelling. The GFC has held up my plans to date.

Regards

Anthony James Blott
