ALEXANDER, Ron

I am an independently minded resident and politically unaligned. I love living in this city, and I want to ensure our council genuinely listens to our community and is transparent in its decision making.

Vincent must deliver value for money and work within its means, whilst responding to the core needs and aspirations, and bread and butter issues of safety, noise, parking, seniors, child-care, sport and recreation along with arts and cultural activities. I will work to maintain the beauty and ongoing health of the flora and fauna in our parks.

As the CEO of a State Government Department for 19 years, I understand leadership, good governance, and sound financial management. As a mentor for troubled youth, I recognise we have a responsibility to look after each other. I seek your support.
