Nominating for	<b>Councillor for South Ward</b>
Election Type	<b>Ordinary</b>

---

## HALLETT, Jonathan

As your South Ward Councillor since 2017, I've been working hard to deliver for our community with a progressive and innovative council. This includes reducing single-use plastics, workforce gender equity reporting, leading public health action and improving community consultation. We're striving towards net zero emissions by 2030, introducing FOGO to reduce landfill, and increasing quality public and green space. I want Vincent to be a City that is welcoming, where local businesses thrive, and our environment, local heritage and community services are protected. Let's get a strategy to underground our power and find better solutions for rat running and congestion. Working in health and education, I'm committed to ensuring our community is central to decision-making. Please get in touch.
