IOPPOLO, Ross

I believe in the voice of residents and an empowered community.

I am running for positive change and to promote genuine community engagement, accountability, transparency & governance.

I am not politically aligned and run with an independent voice.

I will use my CEO & CFO experience to ask questions, provide options & solutions & to add Council diversity with commercial & financial skills.

I advocate sensible solutions to issues with traffic calming, parking, safety, vibrant urban centres, parks & reserves & community asset management.

I have strong ties to Vincent. I own property, operate a family business with origins here from the 1970's; and live in Leederville with my wife and young family.

My promise is to represent your voice.
