MADDEN, Amanda

Having lived in Vincent with my family for over twenty-five years, I am connected to the local community with a firm grasp of the many varied issues affecting the community. With an academic and professional background in education and business, I understand the importance and value of offering greater opportunities to future generations, integral to this is to promote sustainable and efficient growth. I want to see council deliver for everyone, particularly those who are most vulnerable. I'm driven, enthusiastic, dedicated and will be a strong, experienced voice for our local residents. I will consult broadly and represent the views of residents without fear or favour. I'm asking for your support so we can work together to make our community an even better place to live and work.
