**PURPOSE OF REPORT:**

**BACKGROUND:**

At its [8 March 2022 Meeting](#), Council approved conducting community consultation of its intention to amend the Education and Care Services Policy (Policy).

The advertised draft Policy included the following changes:

1. Retitled policy to Child Care and Family Day Care Policy.
2. Improved objectives.
3. Updated definitions to distinguish between 'Centre-Based Child Care Services' and 'Family Day Care Services'.
4. Deleted provisions relating to other legislation or those that are not planning considerations.
5. New provisions relating to:
  - Building design (Clause 1.1)
  - Suitable locations for Centre-Based Child Care Services (Clause 3.1 and 3.2)
  - Car parking and vehicle access (Clause 3.4)
6. Amended existing provisions relating to:

  - Submission requirements (Clause 4).

In accordance with the City's [Community and Stakeholder Engagement Policy](#), community consultation was undertaken between 16 March and 9 May 2022, which is in excess of the 21 days required.

The draft Policy was advertised on the City of Vincent website, social media channels and through the following public notices:

- Perth Voice – 26 March 2022; and
- notice exhibited at the City's Administration and Library and Local History Centre.

An email was sent to the group of stakeholders whose feedback was sought as part of the review process. These stakeholders included education and care service operators within the City of Vincent, applicants who had lodged a development application in 2020 and 2021, and a selection of community members who had provided a submission to the City in relation to a development application relating to an education or child care service.

**DETAILS:**

Administration received one submission during the community consultation period, included at **Attachment 2**. This submission related to a previous development where Main Roads WA did not allow access to be granted from Charles Street. The Policy position is that access should be split over multiple frontages if possible, noting that advice from Main Roads WA or the Department of Planning, Lands and Heritage may prevail, as it did in this case.

No substantive modifications to the advertised Policy are recommended. Clause 4e includes a minor modification to clarify that the noise impact assessment will be “as determined by the City”. The final version of the Policy is included at **Attachment 1**.

**CONSULTATION/ADVERTISING:**

No further consultation is required.

1.	<p>I have just been through the experience of a childcare centre being placed on the corner of Paddington and Charles Street North Perth. I'm a little amused by the way this child Centre has been managed and approved.</p> <p>I protested at the meeting in saying that the traffic in entry and exit to this centre would be horrendous on our local street. I suggested an exit into Charles Street with a Paddington St entry which would create a better flow through. This was not allowed and according to main roads department they will not allow such an exit to exist on a development in Charles Street.</p> <p>This is absurd when all up and down Charles Street we have entries and exits into apartments community centres etc and yet a childcare centre cannot have an exit into Charles Street!</p> <p>I was given the Angove Street example and said there were objections initially with that child Centre. Yet the entry and exit is a flow through which is completely different to what will be proposed and built in the Charles Paddington complex. In this instance residents have not been considered when there should be a workable solution To the traffic congestion that will emanate once the Child Centre is active. I am not against the development other than hoping that common sense would prevail but in this instance we are blocked with bureaucracy.</p>	<p>The City investigated alternate access routes to and from the site during the assessment process. However, the subject site abuts Charles Street which is proclaimed as a highway pursuant to Section 13 of the <i>Main Roads Act 1930</i> and is under the care, control and management of MRWA.</p> <p>Clause 3.4 d of the Policy requires dual vehicle access where possible to distribute the traffic volume over multiple streets, noting advice from other governing bodies may prevail.</p>
