13.1 NOTICE OF MOTION - CR NICOLE WOOLF - PUBLIC TOILET NETWORK REVIEW

Attachments: **Nil**

That Council requests the Chief Executive Officer to:

1. **Undertake a review and mapping exercise of publicly accessible toilet facilities across the City of Vincent, including:**

   1.1 **Distribution and opening hours;**

   1.2 **Accessibility features;**

   1.3 **Family friendly amenities;**

   1.4 **Condition, signage, lighting and safety;**

2. **Identify opportunities to:**

   2.1 **Assess and prioritise potential locations for additional public toilet facilities to meet future demand or where gaps are identified;**

   2.2 **Upgrade existing facilities to improve amenity, functionality, safety and environmental sustainability;**

   2.3 **Improve accessibility and usability for people with disability, children and families, and seniors; and**

   2.4 **Improve wayfinding and signage;**

3. **Present the findings of the review to a Council workshop; and**

4. **Use the findings to inform future capital works program considerations, subject to competing priorities and available funding.**

REASON

- People are more likely to spend time in parks, playgrounds, sportsgrounds, activity centres and other public spaces if supporting infrastructure is readily available, accessible and easy to use.
- Safe, clean and functional public toilets are particularly important for children and families, seniors, people with disability, carers and people using public spaces at night.
- As Vincent grows, this strategic review would help identify gaps in the City's public toilet network and inform future budgeting and works.
- The review is intended to support evidence-based prioritisation within existing budget constraints and does not commit the City to specific works.

ADMINISTRATION COMMENTS

Supported.

The City has commenced this work and will present the findings to Council Workshop in late 2026.
