

## City of Vincent - North Ward - Councillor

### DAWSON, Ryan

I'm running for council to act as an advocate for a community that's supported me and my family. I have a background in the public service and I'm currently working in the private sector with a development focus. I have strong negotiation and communication skills to represent the people of Vincent and ensure the needs of the people are prioritised.

Cost of living pressures are impacting families. Local governments shouldn't add to that stress by unnecessarily increasing fees, or charging above market interest rates for choosing to pay your rates in instalments.

We have great parklands but pressure for land to develop is increasing. We need to ensure that development occurs in a way that is sympathetic to the existing residents. I want to ensure that spaces like Britannia Reserve remain the wonderful mixed use facility that we have come to know and love.
