

City of Vincent - North Ward - Councillor

FOTAKIS, Joanne Maree

I love the strong sense of community we have in Vincent and genuinely enjoy connecting with people, discussing local issues and finding ways to make action happen on the ground. I've worked closely with local businesses and residents, organising events that bring our community together. As Chair of the Leederville Connect Activation Committee, I've helped deliver the Light Up Leederville Carnival, Leedy Open Streets last March and the new Leederville Fringe Festival. We need to ensure our vibrant town centres remain accessible and people friendly, make our streets safer for pedestrians and kids; expand our greening programs to create more inviting, family friendly parks and look to develop smart programs to build community safety. I will champion higher quality developments and stronger community engagement during the development process. I will support independent local business, and always back reforms which improve accountability and how the Council engages and responds to issues.
