

City of Vincent - South Ward - Councillor

HALLETT, Jonathan

I love living in Vincent and want it to be an even more sustainable, welcoming and liveable City; where local businesses thrive, and our environment, local heritage and community services are protected. Vincent is for people of all ages, abilities and backgrounds. Let's enrich our neighbourhoods with more high quality and accessible open spaces, community gardens, edible verges, green pedestrian-friendly streets, sun-safe playgrounds, and creative spaces. Working in health and education, I offer skills in policy, community engagement and strategic governance. Since my February election as Councillor for South Ward I've been active on our City's Road Safety Advisory Group and Pedestrian & Cycling Advisory Group. I am responsive, transparent and accountable, and will ensure residents and small businesses are at the centre of decision-making. Please get in touch – I'm here to listen.
