

## NGUYEN, Mai

Living within Vincent has provided residents with a fantastic lifestyle of diversity, vibrancy and locality. We have many beautiful parks, cafes and restaurants and amenities that are easily accessible within walking and cycling distance from our home. As a long-term inner city resident, previous local restaurant owner, a community volunteer and former spokesperson for the Vietnamese Community, I plan to bring a new energy and perspective to Council so that it works better for the residents and business owners within Vincent. I want to encourage ~~for~~ more practicality over bureaucracy at Council and issues such as parking, traffic and safety for residents and local businesses will be my focus. I encourage the creation of food verges and new community gardens to support health, well-being and social interactions among local residents and visitors to Vincent. I am inclusive, accessible, practical minded and will work hard to actively respond to community concerns.
