

City of Vincent - South Ward - Councillor

OKEEFE, Joshua

How good is Vincent life? As a long time resident and advocate of the City, I understand what makes this part of the world so special. We want to be surprised as we grab a coffee from a hole in the wall, we support our independent retailers and we love our character streetscapes and open spaces. As an independent representative, I'll be strong voice for our protecting our diverse lifestyle. In my previous role at the City, I helped deliver transformational community projects

such as character retention areas, replacement of the City's ageing planning policies and pushed for Claisebrook revitalisation. I'll advocate for vibrant town centres, a more sophisticated approach to carparking and will work with our local government neighbours to address ongoing traffic issues. I believe it should be easier for ratepayers to engage with Council online and in person. I'm ready and keen to listen to your views.
