

City of Vincent - North Ward - Councillor

OLSZEWSKI, Aaron

I am the proud father of an 18-month-old boy, the inspired partner of a primary school teacher, and a grateful resident of Vincent with the passion, expertise, and resolve to make a real contribution to the quality of community life here in our city. I bring to bear a Masters in Politics together with over a decade of public sector management experience and achievement that will make a distinctive addition to Council. I will apply this experience in advocating for a permanent system of citizen participation in both determining the City's budget priorities and delivering new and innovative community projects. Once embedded, this process will strengthen our local democracy, improve our negotiating position with state government, and enable a more coordinated approach to addressing the big issues that are going to confront local government in the near future. For more information, please get in touch. Thank you.
