

## City of Vincent - South Ward - Councillor

### JOSHUA TOPELBERG

Being a local councillor is an absolute privilege. For eight years I have been an independent voice as part of a leadership group that has brought about significant change at Vincent and across the sector as a whole. I am immensely proud of the initiatives that have had meaningful impact on people's lives and I am continually inspired by the community spirit that has been nurtured and encouraged. I am driven to build on the connection between community and council to continue to deliver on our promise to be an accessible, engaged, responsible and progressive council. Looking ahead, I am dedicated to reforming our processes and outcomes and balancing council's service offering to all of our stakeholders. I am a passionate Vincent

local with over a century of connection to this amazing place and would be honoured to continue to serve as your local representative.
