Website	http://www.duratecaustralia.com.au/
Expertise	<p>Duratec has many years' experience in the successful remediation of heritage structures and has received several awards for our Old Treasury Building Project.</p> <p>Winner: City of Perth Heritage Award 2014 Winner: Australian Concrete Repair Association Award of Excellence 2014 Winner: Concrete Institute of Australia Award of Excellence 2014 Finalist: WA Heritage Awards 2014.</p> <p>This is testimony to the high quality of workmanship compliant with stringent specifications, Burra Charter heritage principle's compliance, and importantly the management of safety and the environment throughout the works.</p> <p>Other heritage projects completed include: 726 Hay Street Refurbishment City of Subiaco Memorial Clock Tower Restoration Customs House Fremantle Facade Repairs Perth Observatory Concrete Repairs John Curtin College of the Arts Concrete Repair Project (Schools South).</p> <p>We embrace an early contractor involvement model and work collaboratively with heritage architects and lead consultants to enable our clients to harness engineering and construction know-how and innovative ideas at an early stage, to ensure better project outcomes and agreement on surface treatments and finishes.</p>

	<p>We apply a sympathetic approach to the works mindful of the overarching principles of conservation which according to circumstances will include a combination of preservation, restoration and reconstruction. We understand that heritage building façades are an important expression of a city's identity.</p>
