

Character Retention Areas Nomination Form

A Character Retention Area is an area, neighbourhood or street where much of the original character still remains and should be protected because it contributes so strongly to the look, feel and enjoyment of a place. The objective of identifying a Character Retention Area is to ensure that any new developments and additions are considerate to and do not detract from the unique character of the area.

Interested residents can take a proactive role in protecting an areas character by completing this Nomination Form and submitting it to the City for consideration. Applications will not be accepted unless 40% of land owners in the nominated street or portion of street provide their written endorsement for the nomination to proceed.
