

CITY OF VINCENT

LANEWAY GALLERY

» INFORMATION FOR EXPRESSIONS OF INTEREST

The City acknowledges the importance of public art and the role it plays in meeting its strategic objective to celebrate, acknowledge and promote the City's cultural and social diversity. The aim of the Lightbox Laneway Gallery is to provide a public exhibition space to showcase artists, and provide the community with an accessible gallery.

8 lightbox cabinets are located in the laneway between St Michael's Restaurant and Orno Interiors, near 483 Beaufort Street, Highgate. The City provides the opportunity for artists to utilise the lightboxes to exhibit for 3 months, providing a new exhibition 4 times a year.

This document provides information and guidelines to local artists, groups of artists and curators who wish to submit a Lightbox Laneway Gallery exhibition proposal with a budget of \$1,000.

Applicants should be proficient in envisioning, writing about and installing an exhibition. Proposals should be conceptually resolved and supported by a visual mock up alongside examples of past works and submitted to <u>mail@vincent.wa.gov.au</u> by the closing date provided. Preference will be given to those artists who reside in the City of Vincent.

» LIGHTBOX DIMENSIONS AND FITTINGS

Proposals should address all 8 lightboxes with 4 being portrait, and four landscape. The display areas are A2 (594mm x 420mm) with a 100mm depth. The City recommends dedicating 1 lightbox to artist information, and directing the community to purchase the works, or to find out more about the artist.

Print works are secured by strong magnet strips within the display cases. Diagrams are found in **Appendix 1**.

Each lightbox is lit internally with energy efficient LED lights, which are solar powered.

» MATERIALS

All materials installed in the lightboxes must be of professional quality and be able to be removed without compromising the integrity of the lightbox or its fittings. Materials should not damage the lightboxes in any way, or be materials that may rot or deteriorate.

Given the public location of the lightboxes, applicants are encouraged to carefully consider their choice of installation materials. It is suggested artists should not plan to use rare, valuable, precious or irreplaceable materials. Prints, opposed to original artwork are also suggested, and non-adhesive transparency film prints work best with the lighting.

» INSTALLATION PROCESS

The artist/s will meet City's Officers on-site to install works at an agreed time. The artist is to liaise with the City to ensure that any approvals required are met. It is the responsibility of successful artist is to maintain a safe working environment.

The City will remove the works when the next exhibition is installed and advise the artist when their works are ready to be collected from the City.
