PAYMENT DETAILS	
American Express and Diners Club are not accepted	
I authorise a deduction of <b>\$130.00</b> from the below card:	
<input type="checkbox"/> Mastercard <input type="checkbox"/> Visa	
Cardholder's name:	
Card number:	Expiry date:
Signature:	
Office use only: receipt code 568	

DECLARATION	
<ul style="list-style-type: none"><li>• I have read the attached information on noise management plan requirements and have addressed them in the plan attached to this application.</li><li>• I understand that submission of this form and payment for a noise management plan assessment does not automatically grant works approval. I understand that I will receive a formal approval letter from the City's Health Services should the noise management plan be approved.</li></ul>	
Applicant name	

To submit your application please email this form  
and your noise management plan to [mail@vincent.wa.gov.au](mailto:mail@vincent.wa.gov.au)

## NOISE MANAGEMENT PLAN REQUIREMENTS

Noise emitted from a construction site outside the hours of 7am to 7pm Monday to Saturday, or any time on a Sunday or public holiday, can only occur after a Noise Management Plan has been approved by the City of Vincent.

The Noise Management Plan needs to include the following:

1. Brief description of the proposed works
2. Dates and times of the proposed works
3. Reasons why the construction work is proposed to be undertaken outside of 7am to 7pm Monday to Saturday, or any time on a Sunday or public holiday
4. Detailed map showing the area of works including nearby streets and nearest noise receivers
5. Details and duration of activities on the construction site likely to result in noise emissions that fail to comply with the assigned levels prescribed by Regulation 7
6. List all types of equipment to be used with db(A) levels at one metre and (refer to manufacturer's data or AS 2436-2010)
7. Details of measures to be implemented to control noise (including vibration) emissions
8. Confirmation that all equipment used onsite is the quietest reasonably available, and that the construction work will be carried out in accordance with control of environmental noise practices set out in section 4 of AS 2436-2010 Guide to noise and vibration control on construction, maintenance and demolition
9. Procedure for monitoring noise (and vibration) emissions
10. The proposed notification area (all premises that will be exposed to noise in excess of the assigned levels prescribed by Regulation 7 must be notified at least 24 hours in advance of the works)
11. An example of the notification letter that will be delivered to premises identified in point 8 above, including details of the proposed works, dates, start and finish times and a telephone number for the person contactable at all times during the works
12. Complaint response procedure

### **NOTE:**

- Refer to AS 2436-2010 Guide to noise and vibration control on construction, maintenance and demolition for further guidance
- Certain works may require the submission of noise contour maps showing the noise impacts on surrounding noise sensitive premises
- You may wish to seek the advice of an Acoustic Consultant to assist in preparation of the noise management plan, particularly where works are directly adjacent sensitive properties
- Where noise is predicted to affect noise receivers in adjacent local government areas, you must also contact that Local Government to seek their support

If you have any questions on the above requirements please contact an Environmental Health Officer on 9273 6533 or email [mail@vincent.wa.gov.au](mailto:mail@vincent.wa.gov.au).
