

City of Vincent Reusable Gift Wrap Promotion

To help residents make the switch to Reusable Gift Wrap, City of Vincent is offering a rebate of 30% of the cost of your reusable gift wrap purchase, up to a total rebate value of \$50.

Single-use gift wrap can have a heavy environmental cost, especially during the holiday season. Vast amounts of water, energy, and raw materials like trees are used to create wrapping paper that is often discarded within minutes. Single-use gift wrap contributes significantly to landfill waste, as most of it is non-recyclable due to dyes, laminations, and glitter.

Reusables are a simple alternative and often far more convenient than single-use products.

They are also very cost effective and could see you save money each year in comparison to single-use.

Reusable Gift Wrap Products are widely available at online retailers and shops. Many department stores now stock re-usable gift wrap products!

Whether you're wrapping a small gift for a co-worker or a large gift for a family member there are many sustainable solutions to choose from in every size & shape:

- Reusable gift bags
- Furoshiki kits
- Tea towels
- Material/Fabric
- and many more!

Aim

- To assist residents in a transition away from single-use products to reusables.
- To educate residents about the many Reusable Gift Wrapping Product options now readily available on the market and their ease of use and convenience compared to single-use products.
- To introduce residents to the cost saving opportunities that reusable products can provide over time.
- To divert gift wrapping waste from landfill.
- To minimize confusion around which bin single-use wrapping paper should be placed in after use.
- To reduce resource consumption in our community, including from the single use products themselves as well as their packaging and wrappers.
